**The All-Day Complex Case Studies based on AMA Guides 6th edition Workshop on Sunday,**

April 25, 2024 is specifically designed for doctors of all specialties, as well as psychiatrists, psychologists, internal medicine, physiotherapist, occupational therapist, lawyers and others who have already been trained in the use of the AMA Guides 6th edition and now want to take their skills to the next advanced level. This workshop will cover 20 case studies including psych, ENT, Eye and internal medicine cases that would enhance the skills beyond the initial training in the AMA Guides 6th ed. Anyone who has attended a one- or two-day AMA Guides 6th edition training previously should consider attending this new and Advanced Complex Case Studies workshop as it would help them advance their skills in the use of AMA6.

**A Certificate attesting to the training in the AMA Guides by the American Board suitable for wall framing would be granted to each Attendee of the Program.**

**How ABIME Certification  
Advances Your Career**

Certification through the American Board of Independent Medical Examiners (ABIME) sets you apart as an Internationally recognized medical examiner. ABIME certification represents the pinnacle of professional competency and integrity, instilling greater client confidence in your capabilities and identifying you as an experienced physician who understands the unique issues of disability evaluation. Doctors certified by ABIME meet the demand for quality, impartial impairment and disability evaluations. A 4-hour Online Exam will be offered on April 13, 2024 and requires a separate application. Please visit [www.abime.org](http://www.abime.org) for details and the application process.

**Invitation from Professor Mohammed Ranavaya, MD, JD, FRCP**

Please accept my invitation to attend an upcoming *American Medical Association Guides to the Evaluation of Permanent Impairment (AMA Guides) 6th ed.* training on April 13<sup>th</sup>, and Advance Case Studies on April 14, 2024, beginning at 8am **United States Eastern Standard Time** each day. **There will be an additional bonus segment on South Africa RAF Serious Injury Claim Assessment at the end of training session.**

This training will be provided as live lectures by video linked virtual seminar i.e. webinar with Zoom technology. The software is very simple and easy to work with. You will be connected to live class room with a simple click on your computer or other online device.

Following are some of the features of such training for you to consider:

1. Eight-hour long sessions would be carried out on Saturday and Sunday, very similar to the training seminars previously delivered in person.
2. I will be conducting this seminar live from our telehealth communication center on our professional Zoom webinar platform.
3. The training will begin at 8AM USA Eastern Standard time each day on Saturday/Sunday & conclude at 5:00 PM.
4. The tuition fees and other credits will remain the same just as live-in person.
5. Each attendee will receive the same certificate of training from the American Board as the attendees of in person program receive. In other words, there will be no difference in this virtual training from live in person training.
6. Attendees will need an Internet connected computer or another device that can run Google Chrome browser or Microsoft Edge which is free to download.
7. This will be a live webinar by Zoom webinar technology and there will be no permission to record it. Only registered individuals would be permitted to attend.
8. The attendee would need to have a Webcam and microphone attached to their device. Each attendee would be monitored throughout the session to ensure the attendance and presence during the lecture for conference with CME rules. This would mimic a live training as nearly as possible.
9. Our IT team would provide easy to follow instruction and would also be available during the workshop to sort out any problems and trouble shoot any issues.
10. Each one of you would need an AMA Guides 6th ed. Book in front of you to learn, as I would directly teach from the book. There would be no handout material.
11. Each attendee would be able to communicate directly with me and interact with other attendees during the seminar using Webcam and audio.
12. There will also be a secure online ABIME CIME exam for those of you who wish to sit for the exam. So, the entire ABIME CIME certification process can be done in a virtual environment.

**Mohammed Ranavaya, MD, JD, MS, FRCP, FFOM - President, ABIME**
